Discription

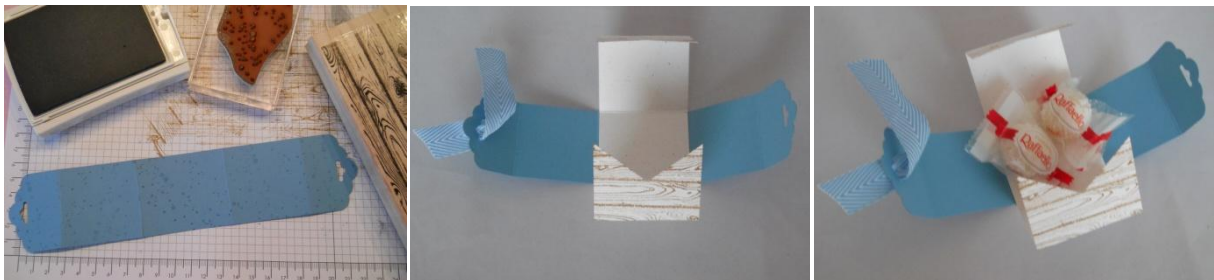

At first we cut the Cardstock Naturals White. Put the Cardstock through the banner framelit dies and cover the upper cutting pad only half right. Than rotate through the Big Shot and repeat on the other side. Then the stamp on piece with the Hardwood stamp.

Last we take the piece Cardstock Naturals White folded at 1 7/8 inch and 3 7/8 inches with the simply scored scoring tool, then turn the Paper at 180 ° and fold again at 1 7/8 inch and 3 7/8 inch.

Now we make the outside sleeve. The marina mist cardstock scored with the simply scored scoring tool fold in 1 1/2 inches , 3 1/2 inches , folding 5 3/4 inch and 7 3/4 inches.

Punch the folded marina mist cardstock from both sides with the scallop tag topper punch. Then be stamped with the small dots from gorgeous grunge with marina mist ink. With it is only very discreetly, stamped once on scratch paper and then on the right marina mist cardstock. Now is finished the outer half of the packing. Now the two strips crosswise with Tombow glue together.

Insert the corners into each other, fill chocolate in the side and pull the chevron ribbon through the loops and close. Make the small tag and with the baker's twine attach.

Ready is the little box!
